Androscoggin County Emergency Management Agency is pleased to host the **TEEX MGT-341 Disaster Preparedness for Healthcare Organizations within the Community Infrastructure course**. This course brings together individuals from the healthcare community who are responsible for ensuring the resiliency of healthcare services during high consequence or catastrophic events within a jurisdiction. Through a focus of preparedness processes and activities, this course provides an opportunity for participants to acquire the knowledge and skills necessary to help them ensure the sustainability of their resources, facilities, and organizations during all types of disasters. Individuals who complete this course in combination with the MGT-317, MGT-343 and MGT-345 are eligible for the TEEX Infrastructure Disaster Management Program Certificate.
